

REMARKS/ARGUMENTS

The foregoing amendment and the following arguments are provided generally to impart precision to the claims, by more particularly pointing out the invention, rather than to avoid prior art.

Prior amendments submitted in the subject application are presented herein to amend relative to the issued patent, in accordance with 37 C.F.R. 1.173.

A Statement of Claim Status and Support in accordance with 37 C.F.R. 1.173(c) is filed herewith as a separate paper.

Specification

Applicant has amended the “Cross Reference to Related Application” section of the Specification to include details of all reissue applications filed for the reissue of U.S. Patent No. 6,307,847, and to include priority information for the present reissue application.

Allowable Subject Matter

Applicant thanks the Examiner for indicating the allowance of the following claims: 1-37, 82-91 and 93-120.

Claim Objections

The Examiner has objected to claim 92 because of informalities, and has advised that the deletion of “[attaching]” from line 2 is required. Applicant has amended claim 92 accordingly, and respectfully submits that the objection has been overcome.

Supplemental Declaration

A supplemental declaration for reissue patent application is filed herewith to cover errors which are not covered by the prior oath(s) and/or declaration(s) submitted in this application. The supplemental declaration is not signed by the inventor, because the inventor refused to join

in the filing of the application. A copy of the decision to grant the petition under 37 CFR 1.47(b) filed in the present application is submitted herewith.

Consent of Assignee

Applicant submits herewith the written consent of the assignee, Keystone Technology Solutions, LLC, to the filing of the present reissue application, and a submission establishing an ownership interest in the patent for which reissue is sought, each of which have been signed by an authorized representative of the assignee.

CONCLUSION

It is respectfully submitted that all of the Examiner's objections have been successfully traversed and that the application is now in order for allowance. Accordingly, reconsideration of the application and allowance thereof is courteously solicited.

If there are any fees due, please charge them to our Deposit Account No. 50-2638.

Respectfully submitted,

Date: January 12, 2010
